TO PASS AROUND JOB OF STATE REVENUE AGENT

Times Says This Position, Biggest Political Plum Available, Will Be Divided Between Dr. Board and Joe Morris

PLACE PAYS FROM $150,000 TO $200,000 PER YEAR

Associated Press

LOUISVILLE, Jan. 12.—The Times today says the biggest political plum in the state is the position of state revenue agent, which will be passed around so at least two men will have it, according to widely circulated reports in political circles. According to political observers Dr. Milton Board, who was appointed to the position by the state tax commission soon after James J. Brown of Louisville was sworn in as state tax commissioner, is to retain the place only one year, after which it will go to Congressman Joe Morris, according to politicians. Board will resign at the expiration of Morris' term in congress and then Morris will have it. The place paid $150,000 in fees last year and is expected to pay $200,000 this year.

WATSON SAYS HE IS NOT CANDIDATE

Leaves Way Clear for Coolidge to Enter Indiana Presidential Primary

By Associated Press.

WASHINGTON, Jan. 12.—Senator James Watson of Indiana announced yesterday he would not be a candidate for the Republican presidential nomination. This leaves the way clear for President Coolidge to enter the Indiana presidential primary. Watson did not add to the bare announcement. The decision had been hanging on file for several months.

LONDON FORMS COOLIDGE FOR PRESIDENT CLUB

A number of representative Republicans met in London in an informal meeting Tuesday afternoon and decided to organize in the county immediately a "Coolidge for president Club" to make sure the full support of the county for the president when the State Republican Convention meets in Louisville on Feb. 12. It was deemed expedient to organize at once. They named an organization committee with former Congressman D. C. C. Edwards as chairman and Mr. Sam Barrett as secretary, and named Monday next, Jan. 14, at 1:00 p. m., as the time of meeting to form a permanent organization extending into all precincts of the county.

Those who have observed the public acts of Mr. Coolidge both before and after he became president recognize in him the natural leader of the Republican party for president this year, and believe that he can and will defeat in November any candidate that might be put up to oppose him. The Sentinel-Echo, which has always been an admired of Mr. Coolidge, will do what it can to secure the nomination and election.—Sentinel-Echo.

AX READY FOR MINOR CAPITOL EMPLOYES

FRANKFORT, Jan. 12.—The political house cleaning at the Capitol probably has begun when the State Capitol Commission holds its first session.

It is composed of Gov. William J. Fields, Mrs. Emma Guy Cromwell, Secretary of State; Frank E. Daugherty, Attorney General; W. H. Shanks, Auditor, and Edward B. Dishman, Treasurer.

A score of employes, elevator men, floor men, charwomen, janitors, electricians, engineers and firemen at the power plant are subject to immediate removal.

Rufus Wilson, custodian, and Joe Bradburn, Superintendent of Printing, have 18 months of their term to serve.

It is probable that the commission will change the force in a large measure, as has been customary.

OIL WELL DRILLERS UNEARTH CAVE IN SANDSTONE LEDGE

The oil well of the Canada Peak Oil company on Lick Fork had reached a depth of 370 feet at noon today.

Thursday afternoon, a large cave was unearthed in a hard sand-stone ledge. This cave was hit by the drill close to one ledge and the drill went into it at a slating direction for nearly three feet, and, becoming wedged, was not loosened until after two hours of hard work.

It was then decided to fill the cavity and about a ton and a half of loose rocks were dropped into the well. The string of tools was then dropped and an attempt to continue the drilling but the side cavity was not yet filled and diverted the drilling bit. A stick of wood was dropped and the drilling was continued.

Outside oil interests are keeping a close watch on this test well. J. S. Wheeler of the Petroleum Exploration company of Lexington, spent three hours Friday morning at the well and became interested to the extent that he inquired as to whether or not there is any available acreage near the location of this well.

MANCHESTER FALLS BEFORE HOME TEAM

Boys Evenly Matched In Basketball Game—Final Score Last Night 25 to 20

M. H. S. basketball team licked the Manchester players with a score of 25 to 20 at the high school gym last night. The game was hard fought throughout, and so evenly matched were the opposing teams, intense interest and enthusiasm was maintained by the spectators.

The score at the end of the first half was 13-9 in favor of the local team. Jacobs made four field goals in eight attempts, while Brown made two in 12 attempts. Watters was the star of the Manchester team throughout the game.

Interest was at the highest pitch when the score was 16-16 and both teams put forth their strongest efforts to capture the game. M. H. S. gradually gained the lead, however, and maintained it with a gradual increase.

During the last half of the game, Jacobs made two field goals in eight attempts and Brown made three in the same number. The same line-up was used during the second half.

T. Russ Hill was the referee and won praise from the visiting team by the fair manner in which he enforced the rules of the game.

The line-up for M. H. S. follows: Brown, Jacobs, forward, Marion center, Willis, Slone, guards. Fallon and Gibson were substitutes. The position of the Manchester players follows: Walters, center, Hubbard, Combs, guards. Baker and Cordell were substitutes.

GAMBLER COULDN'T BRIBE LOCAL POOL ROOM PROPRIETOR

Diogenes could have gone back to his barrel, satisfied that his search for an honest man was ended, had he witnessed a little scene here recently in which gold was stacked against honor.

The stranger who claimed Knoxville as his recent habitat was a portly, flashily dressed individual—the kind of bird who could have played the role of the western gambler in the modern cinema production with little change in make-up. Moreover, he had a roll of "jack" liberally interspersed with twenties and fifties.

He approached the proprietor of a local pool room, according to the witness, and offered him a fabulous sum for the use of the front tables for three weeks. The offer was promptly turned down. The proprietor could not be bought.

SMALL BROWN HEN HAS PLEASANT TIME ON AVENUE TODAY

Some chicken!

That is what everyone's opinion of the fowl which, by the way, is one of the feathered variety. There is nothing unusual in her appearance; certainty it was not a bird calculated to elicit enthusiasm from a poultry fancier. Her color is something of a brown and her claims to pure blood of any breed are indubitably vague.

Placidly making her way along Cumberland avenue and nimbly dodging the traffic and pedestrians the hen has been the subject of much speculation all day. No one seems to know where she belongs nor why she is forced to roam the streets.

GOV. PEAY IS NOT FOR ROAD BONDS

Primises Land Tax Cut—8-Month Term Rural School Solution, Executive Says

NASHVILLE, Tenn., Jan. 12.—In a talk to the Tennessee public school officers association Thursday, Governor Austin Peay stated that he already had reduced the land tax in the state six cents and if elected governor again would reduce it another ten cents by offering revenue from sources not now bearing their share of the tax burden.

The greatest problem in the country today, he said was agriculture and if agriculture was to be saved the government must create some agency to market the surplus crops. He declared land must be relieved of any contribution to the state government and to this end he was working.

The solution of the rural school problem he said was an eight-month term in all elementary schools.

He opposed big bond issues for highways, expressing the belief that the highway department's revenues supplemented by short term notes would complete the state's highways in a shorter time and at a great saving to the state.

He proposed in the next few years to transfer the Confederate pension fund to the health department as the pensioners died.

A THOUGHT

Who is this that darkeneth counsel by words without knowledge?—Job 38:2

As it is the mark of great minds to say many things in a few words, so it is that of little minds to use many words to say nothing.—La Rochefoucauld

TO TAKE CARE OF FLOOD WATERS

The discomfiture [illegible] resulting from the flood water after the heavy rain [illegible] people totalling [illegible] [illegible] to prevent this. The obvious method is to dig the canal deeper so that all of the water could be carried away as it is brought down from the mountain. This method, however, would be so expensive as to make it almost impractical and for this reason several other plans are being suggested which would help greatly and which would be less expensive.

First of these probably is the suggestion to clean the canal thoroughly the entire way, freeing it from trees, [illegible] and all obstruction. Along with this it is pointed out that if the several abrupt turns in the canal that serve now to retard the flow of water were done away with by a [illegible] of [illegible] mile or a steam shovel and the outlet be made comparatively straight one this would greatly facilitate matters.

Another proposition is to deflect the waters from the mountain stream of Stony Fork Hollow into the natural waterway leading around Middlesboro. The canal, then, could easily take care of the waters from Mingo Hollow. There are only a few places now obstructing the natural outlet from Stony Fork, it is pointed out, and diligent application of a team, shovel would do [illegible] without too great an expenditure.

Other methods have been suggested to take care of the frequent overflows and it is evident that those merchants and residents who suffer frequently with a flood of water in their basements or first floors would be willing to pay well to have the matter taken care of.

But this is a worthy task for our new commissioners. The city council gave us a good street system. Won't the commissioners look into this other great improvement?

FACTS ABOUT THE BONUS

The bonus question and tax reduction are the two live issues before Congress. [illegible] seeking re-election have to commit themselves on either measure at the present time. Realizing [illegible] have been trying to work out the national problems and give the people the facts. If the people know the facts public opinion may be relied upon to bring about a satisfactory solution.

The three different measures placed before Congress for [illegible] are the Fordney, McCumber and Mott bills. All three bills give ex-service men the option of choosing any one but only one of the following plans:

1. Adjusted service pay, cash award. 2. Adjusted service certificate insurance. 3. Vocational training aid. 4. Farm or home aid. 5. Land settlement aid. [illegible] these bills varies as does time in which government must pay.

The McCumber bill has made most progress, as it has been reported on favorably by Senate Finance Committee. But from taxpayers' standpoint and for good of country the Fordney bill is considered best as the government has longer time in which to pay.

In considering McCumber bill, the Finance Committee believes minimum possible cost would be $1,540,000,000 if every veteran took the cash payment plan. The maximum would be $5,273,000,000 if every veteran took adjusted service certificates (insurance). Under what Finance Committee believes would be real operation of legislation, total cost would be about $3,340,000,000 [illegible] spread over a period of 20 years.

Comparing governmental expenditures for 11 months of fiscal year 1921 with whole year 1914, it is found that federal expenditures were $2,700,000,000 more than expenditure for 1914. [illegible] would be [illegible] [illegible] to these expenditures.

For year ending June 30, 1921, expenditure of federal government alone were about $50 per capita or $250 per annum per family as against $7.07 per capita in 1914.

Taking the 17-month period during which we were at war, it is found that the [illegible] enlisted men received [illegible] pay during that time the [illegible]: United States, $7,000; France, $775; Italy, $[illegible]; Russia, $741; Great Britain, $138.70; New Zealand, $178.70; South Africa, $138.70. It is understood Belgium paid a slightly higher rate than France. Canada paid the same as the United States, while Australia paid approximately $1,200 a month, the highest amount of any country.

Every state in the nation except six has made provisions for bonuses or assistance to ex-soldiers. These benefits are estimated to total over $381,000,000. In addition the federal government gave each bonuses at time of discharge.

Roughly [illegible] of the cost of [illegible] is up to the people of United States to decide whether or [illegible] have already been made [illegible] for government at present time [illegible] to carry proposed bonus legislation [illegible] of disabled veterans at [illegible] from $1,000,000,000 to $3,000,000,000.

THE OPEN FORUM

From Noetown

Editor Daily News: I have read with interest Mr. Cooke's plan to collect city taxes and would like through the columns to ask the commission a few questions:

Do you think that we should have to pay city taxes at the regular rate when we have no police or fire protection and no lights, water or other advantages here in Noetown, a section of 1,200 population that is as [illegible] other part of the city entirely?

When we have a fire here the fire men answer the call in a [illegible] When we have need of a policeman the call is usually not answered.

I suggest, Mr. Cooke, that you see that we get some of these advantages and then perhaps citizens here can pay taxes without feeling that the money is used for advantages for other parts of town.

A smile of the natural kind
But when it's unchangeably present
You wonder what's lurking behind
And I am intensely distrustful
Of devious scheming, and guile
Behind a perpetual,
Glad to have met you all,
Guaranteed durable
Chronic incurable
Smile!

The Great Clock

The clock of life is wound but once
And no man has the power
To tell just when the hand will stop
At late or early hour
Now is the only time you own
Live, love, toil with a will
Place no faith in tomorrow for
The clock may then be still.—Lit. Pls. (London)

TOXIN SCIENTISTS ARE SEEKING WOULD MEAN DEATH TO WEARINESS

By Associated Press

LONDON, Jan. 12.—Scientists having failed to find the elixir of life or the fountain of youth are now seeking the next best thing, a vaccine that will do away with weariness and enable a person to go through all forms of exertion without fatigue. The search, according to Sir Robert Armstrong-Jones, is going on in the United States, Italy and the United Kingdom.

[illegible] and [illegible] are leading the movement in America and [illegible] [illegible] he did [illegible] an experiment [illegible] with tired mice. They are basing their experiment on the [illegible] fact that the human body invariably creates its own antitoxin when poison enters the blood. Even if the fatigue fighting vaccine is found it still will be necessary for man to sleep, said Sir Robert. Indeed, the alleviation would be conducive to slumber.

Pending the discovery of the toxin various methods to avoid that tired feeling are being advocated. One is the use of salt in solution as a beverage. Experiments upon miners have shown that their efficiency is increased 20 per cent by the daily use of salt, a recent convention in London was informed by Professor K. Neville Moss.

Exertions work in a hot, dry temperature, Professor Moss explained, causes the worker to perspire freely and leads him to drinking large quantities of water. This, said Professor Moss, produces cramps, fatigue and clogging of the kidneys.

To prevent water poisoning, miners undergoing the tests in this country were given a solution of salt in water to balance the loss of salt by perspiration. As a result the miners dug more coal, their vigor was maintained throughout the day, they were no longer bothered with cramps and they slept more soundly.

Professor Moss said the best solution of salt to use is one containing 10 per cent [illegible] chloride [illegible] [illegible]

SELL $5,000 WORTH TREASURY CERTIFICATES HERE

Five thousand dollars worth of the new 4½ percent Treasury Savings Certificates were sold at the Middlesboro Post Office during the month of December, according to Postmaster Miller.

Commenting on this large sale of certificates during the past month, the postmaster stated that the higher interest yield on the new certificates is proving very attractive to investors.

"The person of moderate means need no longer complain that the man of wide financial knowledge has the advantage when it comes to investing money with absolute safety, as the new prices at which Treasury Savings Certificates can now be bought offer even the person who has only $20.00 to invest, a United States Government bond which yields 4½ per cent compounded semi-annually, if held until maturity; and this interest is free from all state and local taxation and the normal Federal income tax. The Government thinks so well of this security that it limits the holdings of any one individual to $5,000 worth of each series," declared Postmaster Miller.

The new 4½ percent Treasury Savings Certificates can be secured at the local post office in the three denominations of $1,000, $100 and $25 at cost prices of $800, $80 and $20 respectively.

Indiana Lady Says She Was Run-Down, Suffered With Her Back, Took Cardui, and Got Well.

Richmond, Ind.—"I thought I would write a line or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney, 31 Railroad Street, this city.

"I was all run-down until my family thought they would lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so, to please him, I did, and will say I do not regret it, for I am able to do all my work and do my shopping.

"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine.

"I suffered with my back; a very weak feeling in my limbs.

"I felt hardly able to drag; just tired—so tired all the time.

"It was an effort for me to do anything, but Cardui helped me so I felt like a different woman."

If you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you.

SPLENDID RECORD OF ATTENDANCE

Pineville Truant Officer Does Good Work Keeping Children In School

PINEVILLE, Jan 12—The truant officer, Ben Gibson, reports a splendid record for the last year. There are between 950 and 1000 pupils enrolled in the public schools here. Using Wednesday as an example only 22 were absent. Only four of these were absent without excuses. Seven were reported sick and unable to attend, nine of these were tardy and two were out of the city. Mr Gibson is given a list every morning and he looks up the guilty ones to explain their absence. This is a splendid record [illegible] to the officials of the schools.

APPREHEND MAN SOUGHT FOR MONTH ON LIQUOR CHARGE

PINEVILLE, Jan 12—Will Vaughn of near Calvin, a fugitive from justice, was apprehended by officers Mays, Gibson and Metcalf, of Harlan county and brought to the jail here. Liquor was found in Vaughn's home in a raid instituted by W. B. Saylor and some of the deputies of the city about a month ago. Vaughn was not caught at the time and his family was warned that he would be captured if he returned. Will Sampson was captured near the Pine Ridge coal mines on this same day and an underground still with a barrel of mash was destroyed. Sampson was released on bond shortly after the arrest.

SEVERAL FINED FOR OPERATION OF PUNCH BOARDS

PINEVILLE, Jan 12—Between 15 and 20 business men in Middlesboro and surrounding territory have been fined for the operation of punchboards. The punchboards are operated on a 'chance' basis, charging so much for the punches, rolls of paper on which are printed numbers. The winning numbers obtain such prizes as gold pieces ranging from $5 up, revolvers, watches, watch fobs and many other items far above the value of the punch. The receipts of the punches on the board, however, give an immense profit to the operator. Some boards contain as high as 3000 punches, retailing at ten cents a punch with articles offered as prizes that equal possibly $100, making a profit of $200 on the board. It has been reported that operators have cleared some of these boards in two days and in some cases one.

Cold Weather Puts Crack in Window From Top to Bottom

PINEVILLE, Jan 12—The queerest freak of the cold weather here perhaps, occurred at Fosters store.
